

Address contributions for *CHP News* and “CHP Corner” to:

Editor

Kyle Kleinhans, CHP
Work: 865-576-4170
Fax: 865-241-3548
Email: kk2@bechteljacobs.org

Associate Editor

Harry Anagnostopoulos, CHP
Work: 314 429-9340 x22
Fax: 314-426-0527
Email: harold.w.anagnostopoulos@saic.com

Associate Editor

Rodney Simonsen, CHP
Work: 702-295-4442
Fax: 702-295-3514
Email: simonsrj@nv.doe.gov

From the (new) Editor

This issue of the “CHP Corner” marks a change in Editors. For the past several years, Steve Rima has served as the Editor in Chief of the “CHP Corner” and *CHP News*. Kyle Kleinhans has served as the Associate Editor. This means that for the past several years, Steve has done most of the work associated with gathering information and putting the “CHP Corner” and *CHP News* together and Kyle has helped do whatever Steve wanted him to do. In reality, Steve has carried most of the load for the past several years and has done an excellent job. With this issue, Kyle is taking over as the Editor.

I would also like to announce

the selection of two new associate editors, Harry Anagnostopoulos, CHP, and Rodney Simonsen, CHP. Both have graciously volunteered to work gathering information of interest to CHPs and potential CHPs. Harry is currently manager of the Operational Support Section at SAIC’s St. Louis office. He has 19 years of health physics experience, including the naval nuclear propulsion program, commercial nuclear power plant operations, facility decommissioning, emergency response, and environmental remediation. Rodney is currently employed by Bartlett Services, Inc., as a project health physicist

at the Nevada Test Site. He has 22 years of health physics experience, including commercial nuclear power and Department of Energy facilities.

Please remember that the “CHP Corner” and *CHP News* belong to you. If you have any input in the form of articles, cartoons, letters to the editors, etc., that you would like included, send it to one of us. We’ll help with editing and formatting if you get the information to us. We receive very little in the way of contributions from members of the Academy and would very much like to include your thoughts and input in future issues.

—Kyle Kleinhans

Book Winners

Winners of health physics textbooks given away at the Publications Booth during the HPS annual meeting in San Diego were Ron E. Filipy, John R. Hackett, Jerry Falo, George Hamawy, Philip D. Kearney, Jimmy Dean, Al Tschaeche, and Michele Lee.

Editor’s Note: In the August 2003 *Health Physics News* article, “Chornobyl Accident: Estimation of the Thyroid Doses,” page 6, I incorrectly assigned a PhD to Paul Voilleque. He is a CHP, though, so I was right on that count.

—Gen Roessler
