THE MARKETPLACE

To Advertise in The Marketplace

The 3.44" x 2.25" ads may be submitted:
1) camera-ready in black and white;
2) by sending a business card for the Newsletter's printer to size to ad space (additional $25);
3) as text to be formatted by the Newsletter office, with the option to print a logo (additional $25);
4) by sending ideas and/or a logo and allowing the Newsletter office to design an ad (additional $50).

Rates for printing ads in the Marketplace section:
• $200 for each ad submitted on an issue-to-issue basis
• $575 total fee for one ad to appear in 3 issues/year
• $1000 total fee for one ad to appear in 6 issues/year
• $2000 total fee for one ad to appear in 12 issues/year
(For $25 to $50 charges apply each time the ad is altered.)

July 1993

THE "CHP Corner" is used to provide timely notification of activities and schedules of special interest to certified health physicists (CHPs) and other HPs who might pursue certification. The semi-annual CHP News newsletter will continue to include more lengthy discussions of substantive certification issues. Please address any contributions for either the "CHP Corner" or the CHP News to:

Nancy M. Daugherty, CHP
Editor, CHP News
511 N. Bermond
Lafayette, CO 80026
303-966-8533; FAX: 303-966-8575

Recertification Packages
Recertification packages have been mailed to those CHPs whose certification must be renewed in 1993. The package includes instructions and forms for renewal, as well as a list of courses for the years 1990 through 1993 that have been approved for recertification credit. Any CHPs having questions concerning recertification materials should contact Nancy Johnson at the HPS Secretariat, 703-790-1745.

AAHP Courses
You may have noticed that there are three eight-hour AAHP courses offered in the program for the HPS 38th Annual Meeting in Atlanta this year. The offerings include: 1) Implementation of the Revised 10CFR20, Charleen T. Raddatz, instructor; 2) Internal Exposure Assessment Programs for the Evaluation of the Adequacy of Internal Radiation, Kenneth W. Skrable, instructor; and 3) Fundamentals of Industrial Hygiene, Peter Collopy, instructor. The descriptions of the courses given in the program help to illustrate the value of the longer eight-hour format. The first and third courses include significant time spent in student workshops applying what had been covered in the lecture. The second course includes a demonstration disk of bioassay and internal dosimetry code, as well as excerpts from the users manual.

To suggest future course topics, contact:
David D. Snellings, Chair
AAHP Continuing Education Committee
